Hey Daniel,

I was given your email to let you know about the issues we've been having with the local homeless community around our building. I've CC'd Sean, the director of our department here as well.

Up until recently, we've only had a few issues with the homeless camped around us. We tended to allow them, as we wanted to be understanding of their plight as much as possible.

Unfortunately, the situation is beginning to become untenable. Yesterday, one of our employees had to go up on the roof, and was met with a foul stench. As it happens, they are defecating in bags, and then throwing these bags filled with feces onto our roof. Additionally, they have been known to defecate right on the sidewalk, near some of our exit doors. Also, there is often the strong scent of marijuana smoke.

This has become more than a nuisance, and has now become a health issue. Also, there is an elementary school just across the street from us, and I'm sure the marijuana smoke is a bad idea in that regard.

I'm not a fan of messing with the plight of the homeless, but I do believe it is time we asked for help.

Any help would be much appreciated.

Let me know if you have any questions.

Thanx!
John.

Hi John,

Thanks for your email, and apologies for the delay in response. I saw you recently at the Buster Keaton event.

I'm CCing Sgt. Shannon Geaney, Officer Gabriel Ruiz, and Officer Eddie Guerra to this email. I'll be out of the office for the next week; please include the officers on any correspondence.

There was some recent authorized sanitation/enforcement activity near the studio, following a period of significant outreach. Please advise of the current status at the location.

Best,

Dan Halden

Hello,

We have been addressing the surroundings of our building here at 1000 N. Cahuenga, as well.

With the shooting last week on Eleanor, the encampments on the side of our building and behind on Lilian have become higher risk than ever before.

We are also curious what the long term solution is looking like,

Shannon Brock
